

## 2020 Student Profiles:

### Emergency Evacuation

---

- Jesus is 4 years old rides in a car-seat and is blind. He can be very aggressive with other students/staff, especially when they are in his personal space. Jesus only speaks Spanish and is learning some English. There are times when he gets frustrated and hits, kicks, and bites when someone speaks English to him, especially when they are asking him to do something he does not want to do.
  - David is 7 years old and has high functioning autism. He is generally compliant and well mannered; however, he often overreacts and becomes violent when there are changes to his routine. He loves dinosaurs.
  - Kristin is 8 years old, rides in a Besi seat and severely impacted by autism and an intellectual disability. She wears headphones because she does not like loud noises. She rocks, flaps her hands, and makes groaning noises to calm herself when she is getting agitated. She does not like people in her personal space and will grab and scratch people, if they get too close. She responds well to having manipulatives in her hands to keep her busy, but she will sometimes throw these.
