

## Region 7, 10, and 11 Student Profiles

April 1, 2023

### Rudy (10)

Fourth grader with asthma and hemophilia. Takes piano lessons and wants to be a composer for movies when he grows up. Uses an inhaler.

### Andy (9)

Third grade autistic student who very rarely speaks. Has an extremely rigid routine, and any deviation from his normal routine (substitute teachers, late bus, etc) can cause a shutdown. However, he can be calmed by an authority figure allowing him to control his own environment somewhat.

### Louise (10)

Fourth grade student in the emotional disturbance class. She can be extremely defiant of authority figures (teachers, bus drivers, etc.), but she loves to talk about cats. Carries a comfort toy with her, and will have a meltdown if separated from it.
